

BUILDING A NEW HOME CAN HAVE
ITS SHARE OF CHALLENGES...

WORRYING ABOUT THE FINANCIAL IMPACT
OF A MAJOR STRUCTURAL FAILURE
SHOULDN'T BE ONE OF THEM...

Protect yourself and gain peace of mind
with a structural warranty for your new home!

OUR TEAM IS HERE TO PROTECT YOU

StrucSure Home Warranty, one of the nation's premier home warranty companies is now the preferred provider of 10-year structural warranties for homes built through UBuildIt.

Together, StrucSure and UBuildIt, have developed a 10-year structural warranty program designed exclusively for UBuildIt's owner-builder clients.

HOW THE COVERAGE WORKS

Problems with new homes can occur, and unfortunately, those problems can be major. The average structural claim of \$30,000 could certainly affect your pocketbook. Are you prepared to pay for such an expense in the event a serious issue arises? If not, our structural home warranty will provide you with low-cost peace of mind during the construction of your dream house and for a decade after completion. The fee is paid once (at closing).

StrucSure Home Warranty provides an insurance backed structural warranty against major structural defects. This coverage begins upon certificate of occupancy and lasts 10 years. Your coverage includes defects in components such as framing members, floor joists, roof trusses, and the foundation.

In addition to providing you with security and peace of mind, a structural home warranty also benefits you by adding value to your home. **The warranty is completely transferable**, thereby providing you with an exceptional sales tool should you decide to sell your home within the 10-year term. So, your return on investment is even greater...

ENROLLMENT IS EASY!

Visit our web site at www.websitename.com to complete the Request for Home Enrollment Application form and provide us with the completed inspections. The process is simple and easy.
