

Having a hard
time managing the
credentialing process?

Captain Credentiaing
to the Rescue!

801 S. Rancho Dr., Suite B-3
Las Vegas, Nevada 89106

Wybtrak, makers of Credentialing and Prior Auth/Referral software, is proud to be exhibiting at the MGMA Conference in fabulous Las Vegas from October 27-30.

Being a superhero doesn't necessarily require a fancy red cape and cool gloves... ***It just requires that you be good at what you do.***

If you deal with Credentialing, then you know how tedious and overpowering the process can be. If you want to be a true Credentialing hero, make the credentialing process less time-consuming and labor-intensive. ***Automate it!***

Wybtrak's Credentialing software provides healthcare practices with the automation they need to meet deadlines (and improve billings). To complete any form, simply select a provider from a drop-down menu, click to auto-populate the form, then print the form (complete with copies of licenses, DEAs, CMEs, etc.). It's that simple!

Because the process is completed electronically, administrators no longer have to fill out forms by hand, deal with illegible handwriting, or search down required pieces of paper such as licenses. See for yourself. Visit **www.wybtrak.com** or stop by our booth at the MGMA conference.

Stop by Booth #1408 to see a free demo of Wybtrak's Credentialing software and receive a 'super' giveaway!
